MILLER HALL

MEN'S DORMITORY

OFFICIAL BOARD

STATE BOARD OF CONTROL

403 Capitol Street
Charleston, West Virginia

In the management of educational institutions, the State Board of Control has the direction of the financial and business affairs.

JAMES S. LAKIN, President Charleston, W. Va.
J. WALTER BARNES, Treasurer Charleston, W. Va.
J. S. DARST, Member Charleston, W. Va.
ROY REGER, Secretary.

STATE BOARD OF EDUCATION

State Capitol
Charleston, West Virginia

In the management of educational institutions, the State Board of Education has charge of all matters of purely scholastic nature.

GEORGE M. FORD, President Charleston, W. Va.
L. W. BURNS, Vice-President Martinsburg, W. Va.
BERNARD McCLAUGHERTY Bluefield, W. Va.
E. W. OGLEBAY Wheeling, W. Va.
LENNA LOWE YOST Huntington, W. Va.
W. C. COOK Welch, W. Va.
HOWARD M. GORE Clarksburg, W. Va.
J. F. MARSH, Secretary Charleston, W. Va.

COMMENCEMENT SCHEDULE

JUNE 7-14, 1923

Thursday and Friday Evenings, June 7 and 8—Graduating Recitals by Department of Music.

Saturday Evening, June 9—Recital by Department of Expression.

Sunday Evening, June 10—Sermon to Graduating Class by Rev. W. E. Lowther, D. D., Morgantown, W. Va.

Monday Evening, June 11—Annual Literary Society Contest.

Tuesday Afternoon, June 12—Tennis Match.

Tuesday Evening, June 12—Senior Class Play.

Wednesday Afternoon, June 13, 2.30—Alumni Baseball Game

Wednesday Afternoon, June 13—Exhibits by Departments of Home Economics, Art, Normal Training and Manual Training.

Wednesday Evening, June 13—Alumni Reunion and Banquet. Special Reunion of Classes of '11, '12, '13, and '14.

Thursday, June 14, 10.00 A. M.—Fiftieth Annual Commencement. Address by Miss Charl Ormond Williams, Field Secretary, National Education Association, Washington, D. C.

ANNOUNCEMENTS

1923 - 1924

First Semester begins Tuesday, September 18, 1923.

Thanksgiving Recess from Wednesday Noon, November 28, to Monday Morning, December 3, 1923.

Christmas Vacation from Friday Evening, December 21, 1923, to Wednesday Morning, January 2, 1924.

First Semester ends Friday Noon, February 8, 1924.

Second Semester begins Monday Morning, February 11, 1924.

Easter Recess from Thursday Noon, April 17, to Tuesday Morning, April 22, 1924.

Spring Term begins Monday, April 28, 1924.

Second Semester and Spring Term end Thursday, June 12, 1924.

Summer Term begins Monday, June 16, 1924.

Summer Term ends Friday, August 15, 1924.

FACULTY

W. H. S. WHITE, President

Graduate Glenville State Normal School; A. B., A. M., West Virginia University; Graduate Student John Hopkins University.

Mathematics, Physics, Chemistry

A. D. KENAMOND, Assistant to the President and Director of the Summer School.

Graduate West Liberty State Normal School; A. B., West Virginia University; Graduate Student West Virginia University, and University of Chicago.

History, Economics, Civics

MABEL HENSHAW GARDINER

M. P. L., New Windsor College; A. B., West Virginia University; Graduate Student West Virginia University 1922-23.

Rhetoric, Literature

ELLA MAY TURNER

Graduate Shepherd College State Normal School; A. B., A. M., West Virginia University; Graduate Student Cornell University and George Peabody College for Teachers.

Art

ADDIE R. IRELAND

Morgantown High School; Graduate Art Department, West Virginia University; Student Art Students' League, New York City; Student Arts and Technology, University of Chicago.

Commercial Subjects

ETTA O. WILLIAMS, Secretary to the President

Graduate Washington County High School and Columbia Business College, Hagerstown, Md.; Student Columbia University; B. C. S. Bowling Green Business University.

Education

L. O. TAYLOR

Graduate Glenville State Normal; A. B., West Virginia University; A. M., University of Chicago.

Music

FLORENCE HOFFMAN

B. Mus., New England Conservatory, Boston.

Expression

MARY E. GIBSON

Latin and English

JESSIE TROTTER

Graduate West Virginia Wesleyan College; A. B., West Virginia University; Graduate Student Columbia University, 1923-24, on leave of absence.

Home Economics

KATRINA BAUMGARDNER

Graduate High School, and National School of Domestic Science and Domestic Art, Washington, D. C.

Supervisor of Teacher Training

ZULA DAVISSON, Graduate Salem College.

LUCILE VAN PELT, A. B., Kirksville Normal School; Graduate Work University of Chicago.

FLORENCE SHOW, A. B., Kirksville Normal School.

(To begin service September, 1923.)

Agriculture, Biology

W. R. LEGGE, Director of Athletics

Graduate Randolph-Macon Academy; B. S., Virginia Polytechnic Institute; M. S., Iowa State College.

History

ALICE G. KENAMOND, A. B., Oberlin College; Second Semester (1923).

Library and English

PAULINE SHRIVER

Graduate Morgantown High School; A. B., West Virginia University.

Training School Teachers

Florence Grubbs	8th
Bessie B. Bell	7th
Ella M. Kelsey	6th
Julia L. Hill	5th
Louise M. Rightstine	4th

OLD COLLEGE HALL

ADMINISTRATION BUILDING

SHEPHERD COLLEGE STATE NORMAL SCHOOL

HISTORY

Shepherd College dates its founding as a State Normal School to an Act of the Legislature of West Virginia, passed February 27, 1872; but it had its incipency in a classical and scientific school styled "Shepherd College," certificate of incorporation of which is on record at Charleston, January 12, 1872. As an inducement to secure a Normal School here the trustees of this private school offered its building to the State free of charge for use as a State Normal School, which offer was promptly accepted, and work under State control began in September, 1872.

LOCATION

The location of the school is most ideal. Situated in the charming old town of Shepherdstown, nestled on the cliffy crags of the beautiful and historic Potomac which sweeps in graceful curves across the Shenandoah Valley at this point, remarkably free from all insidious fevers and diseases, with a wholesome social and moral atmosphere, an educated and cultured community, comparatively easy of access, it affords unsurpassed attractions and advantages to the earnest student.

The school is located on scenic and historic ground. To the east loom up the fine wooded sides of the Blue Ridge, and to the west those of the North Mountain. The Potomac river flows past the town and affords fine boating and fishing, while on its northern bank is the old historic Chesapeake and Ohio Canal, which, with its canal boats drawn by mules, forms even in this day of railroads an important means of transportation. To the south and north spreads out the broad, beautiful and historic valley of Virginia. Three miles to the north is Sharpsburg and the battlefield of Antietam with its fine monuments and the National Cemetery, while some seventy miles to the south is the famous Luray Cavern. The same distance to the east is Washington, the nation's capital. All of these things cannot fail to leave their permanent impress on the mind of the observant student.

HOW TO REACH SHEPHERDSTOWN

Shepherdstown is on the Norfolk and Western Railroad, which connects with the main line of the Baltimore and Ohio Railroad at Shenandoah Junction, six miles to the south; or with the Western Maryland Railroad at Hagerstown, Md., eighteen miles to the north.

Students who live on or near the Baltimore and Ohio lines will come via that road to Shenandoah Junction, from which point they may come via the N. & W. to Shepherdstown. The connections between these roads are at times so poor that many who come by that route find it more convenient to drive from Shenandoah Junction to Shepherdstown, it being a comparatively inexpensive drive over six miles of the Shenandoah Valley. Automobiles may be secured at Shenandoah Junction or ordered from Shepherdstown in advance.

Those who live on or near the Western Maryland lines will purchase tickets to Hagerstown, the connections at this point being more excellent at this time, students being able to reach Shepherdstown before night of the same day of starting from points as far distant as Elkins. This is decidedly the best route for all to whom it is accessible.

Students from Pendleton, Grant and Hardy counties, and neighboring districts, can take the Hampshire Southern road at Petersburg and Moorefield and intermediate points and make connections at Romney and Green Spring with trains east on the Baltimore and Ohio road. Some coming from the South Branch Valley change at Hancock to the Western Maryland for Hagerstown, where direct connection is made with No. 27, reaching Shepherdstown at 4:52 P. M.

As will appear from the above, Shepherdstown is not an inaccessible place, as is sometimes supposed by those who live in the Trans-Allegheny portion of the State. It can be reached in a single day from all railroad points in a large majority of all the counties of West Virginia.

TRANSPORTATION FACILITIES

The latest available time tables show the following schedules on the railroads:

N. & W. South

No. 27—Hagerstown, 4:20 P. M.; Shepherdstown, 4:52 P. M.

No. 13—Hagerstown, 7:35 A. M.; Shepherdstown, 8:06 A. M.

No. 9—Hagerstown, 11:00 A. M.; Shepherdstown, 11:32 A. M.

N. & W. North

No. 14—Berryville, 7:36 P. M.; Shenandoah Junction, 8:16 P. M.; Shepherdstown, 8:34 P. M.

No. 28—Berryville, 8:39 A. M.; Shenandoah Junction, 9:22 A. M.; Shepherdstown, 9:35 A. M.

No. 10—Berryville, 2:55 P. M.; Shepherdstown, 3:51 P. M.

Western Maryland East

No. 10—Elkins, 7:10 A. M.; Davis, 7:30 A. M.; W. Va. Central Junction, 11:18 A. M.; Cumberland, 12:00 M.; Hancock, 2:00 P. M. Hagerstown, 3:00 P. M.

B. & O. East

No. 32—Cumberland, 6:15 A. M.; Martinsburg, 9:00 A. M.; Shenandoah Junction, 9:31 A. M.

Nos. 38 and 8—Terra Alta, 9:29 A. M.; Cumberland, 12:25 P. M.; Green Spring, 12:45 P. M.; Martinsburg, 2:19 P. M.; Shenandoah Junction, 2:57 P. M. (special stop).

No. 34—Cumberland, 3:00 P. M.; Green Spring, 3:35 P. M.; Shenandoah Junction, 6:37 P. M.

Hampshire Southern North

No. 66—Pettersburg, 8:00 A. M.; Moorefield, 9:05 A. M.; Romney, 11:20 A. M.; Green Spring, 12:15 P. M.

CONDITIONS OF ADMISSION

Secondary Course—Students applying for admission to the Secondary Department must have completed three years of high school work. This rule is not intended to apply to those who have taught or to mature students more than eighteen years of age, for whom classes will be arranged as heretofore.

Normal Course—Admission to the standard normal course will be based upon graduation from a standard high school which according to the new rules of the State Board of Education means the completion of fifteen standard units with four units of English and one unit of American history. Applicants must have attained the age of sixteen years, since a teacher's certificate can not be issued in West Virginia to persons under eighteen years of age.

Short Course For Teachers—It is expected that the student applying for this course has already completed three years of high school work either in a local high school or in this school, or has taught on a second grade certificate issued under the uniform examination. The student must be seventeen years of age to be admitted to the senior year of this course. Notice is given that the Short Course may require four years preparatory and one year college or normal work after 1923-24.

CREDIT FOR WORK DONE ELSEWHERE

Credit will be given students for satisfactory work done in other Normal Schools of the State, and also for work completed in such high schools, academies, seminaries, etc., as will seem, in the estimation of the President, to deserve accredited standing. Before receiving such credit students must present a written statement from such schools, signed by the principal or superintendent, setting forth in detail the work satisfactorily completed there.

These credits should be brought and presented by the student at the time of entrance to the President or to Mr. Kenamond.

Credit from classified high schools in West Virginia will be accepted unit for unit, provided the work has been done according to the plan laid down by the State Board of Education, but not more than sixteen units of credit will be thus accepted. Graduates of high schools of the first class offering four years of standard work, will thus be admitted to the Junior year of the standard Normal Course, or they may complete the Short Course the first year and return for Spring and Summer terms, after teaching, and complete the standard Normal Course.

Credits may be allowed on subjects passed on the Uniform Examination, provided the certificate shows a high grade. Usually a No. 1 Certificate will practically satisfy the work of the first year. The scheme of crediting from the certificate toward Short Course work appears under the outline of that course.

HOW TO ENROLL

The student, upon arrival, should come to the President's office, fill out a card enrolling and pay the fees. If any work has been done elsewhere, credits should be presented to the above named committee on entrance, who will include in a general way the classification of the student. Mature students who lack sufficient credit for Senior standing will present themselves to Mrs. Gardiner. Senior Secondary and Short Course to Mr. Kenamond, Junior Normal, Miss Turner, Senior Normal students to Mr. Taylor. These teachers will be found in their regular classrooms and will assist the student in making out programs of work.

AMOUNT OF WORK TAKEN

Thirty-six semester hours for the year is the maximum in the normal course. Thirty-two hours will usually prove sufficient for the average student. In the secondary work for adult students, the maximum is 5 units for the year.

TUITION

The State Board of Education has adopted the following tuition fees: Students in the Normal Course and in the senior year of the Short Course, and Secondary students over twenty-one years of age, pay an enrollment fee of \$7.50 a semester or \$15.00 a year. The tuition for students enrolled in the Secondary Course is \$22.50 a semester or \$45.00 a year. Under the school law of the State, Boards of Education in districts not maintaining classified high schools are required to pay this fee. Consequently, Secondary students coming from districts where no high schools are established will pay the tuition, and send the

RECEPTION HALL, MEN'S DORMITORY

RECEPTION HALL, GIRL'S DORMITORY

bill to the Board of Education in their district for collection. Non-resident students are required to pay \$10.00 a semester in addition to the above.

For the spring term the fee is \$5.00.

The Summer School fee is \$1.00 a week.

EXPENSES

Board and room	\$180.00 to	\$205.00
Books and stationery	10.00 to	20.00
Laundry	20.00 to	30.00
Normal	7.50 to	7.50
Enrollment fees, Secondary	45.00 to	45.00
Student organizations	1.00 to	4.00
	<hr/>	<hr/>
	\$263.50 to	\$311.50

To this should be added traveling and incidental expenses, which will vary with the distance traveled in coming to the school, and which the personal habits and inclinations of the students demand.

STUDENT LOAN FUND

A few years ago a student loan fund amounting to about \$150 was contributed by alumni of the school, and several worthy young people have already been aided. The class graduating in 1917 invested \$100 in a Liberty Bond, and the faculty at the same time invested \$50, both contributing thus to the loan fund. Since that time the contributions have been increasing in number until the fund now approaches \$400.

The fund is in charge of W. H. S. White, the President of the school and ex-officio chairman of the loan committee; Ella M. Turner, member of the Faculty and alumna; and W. J. Knott, president of the alumni association. Applications for loans from the fund should be made to the President of the school.

BOOKS

Students will do well to bring with them any books they may have, but should not purchase new books until they have enrolled and been assigned to their studies.

Students of the more advanced classes frequently have second-hand books for sale at from three-fifths to four-fifths of the original cost.

New books may be secured from the College Book Store.

GENERAL STATEMENT

The people of West Virginia are awake to the value of the trained teacher. This is evidenced by the new Certification Law recently passed by the State Legislature. The law differentiates certificates by designating six different grades: College, Standard Normal, Short Course, First, Second and Third, each with the minimum salary to begin, of \$110, \$100, \$90, \$85, \$65 and \$50.

Shepherd College State Normal School desires to be of service to teachers and prospective teachers in any way possible toward the attainment of the highest efficiency in the service. The institution invites you to consider its advantages—the excellence of its faculty, its equipment, the opportunities afforded by it and its community for quiet study and wholesome student life, its convenient and healthful living facilities and the unusually low cost at which all these advantages may be had.

The rural schools of the State are now receiving the attention they deserve. It has been determined by those in authority to make equalization of opportunity in towns and country a fact. Rural, one-teacher schools under the new law are standardized and classified into first and second class rural schools. Normal School graduation will undoubtedly be required for teaching in these schools. Shepherd College during the present year received three times as many calls for teachers to fill the most desirable places in the State as there were graduates for the places.

In view of the fine promise ahead for the profession of teaching, we feel justified not only in encouraging but in urging young men and women to prepare themselves for a real public service to their communities and their State.

BOARDING

Dormitory—So far as the accommodations allow, girls without friends or relatives in town will room and board in the dormitory. All young ladies desiring a room should write Mrs. Mary K. Cavalier, and young men Mrs. M. G. Briscoe. The rate has been fixed at \$5.00, \$5.25 and \$5.50 per week, according to location of room.

All the bed linen and toweling for the dormitory rooms are furnished by the State, but each student is requested to bring a pair of woolen blankets for the bed and also one small rug suitable for use before the dresser or study table or bed, also bathrobe and bedroom slippers.

Private Families—Many of the best homes in the town accommodate student roomers and boarders. Girls who fail to secure places in the dormitory take advantage of the privileges, and boys also find accommodations with private families, where they seem to be well satisfied with their treatment. Board and room with private families varies from \$5.50 to \$7.00 per week.

The President has jurisdiction over these boarding places, and persons who keep student boarders are required to enforce any regulation in reference to the conduct of students in their homes which he may from time to time find necessary to prescribe.

Students are assisted in finding suitable boarding places by the President and by the Y. W. C. A. and Y. M. C. A. of the school.

RELIGIOUS INFLUENCES

It is not to be supposed because this is a State school and in no way connected with any religious denomination or sect that it encourages any the less character building and religious living. On the contrary, it is often found that the moral and religious atmosphere that pervades State schools such as this is in every way as wholesome and as conducive to upright Christian living as that of schools which are under the domination of some religious sect.

Students are expected to attend at least one service each Sunday in the church of their choice. Shepherdstown has most excellent advantages in this regard, there being no fewer than seven churches having regular service, presided over by a clergy of unusual ability for so small a town. Students are welcomed to their services by both pastors and congregations and find here a pleasant church home. Many of the students are active workers in the Sunday schools and churches, as are also members of the faculty, most of whom are active members.

SOCIAL DIVERSIONS

Social diversions of a pleasing and cultural character are not lacking here. Receptions are given each year by the faculty to the students, who, in turn, give receptions to the faculty. The various organizations also receive at stated intervals. All of these functions are given under proper supervision and they do much toward bringing about that cordial and sympathetic relationship between faculty and students that is so characteristic of this school.

ELIMINATION OF HIGH SCHOOL WORK

Since the opening of the fall semester, 1922, no person is eligible to enter this school who has not completed 12 units of high school work, or attained the age of 18 years. Secondary courses will be offered to meet the needs of these adult students.

All inquiries concerning eligibility or any other matter should be addressed to the President of the School.

W. H. S. WHITE,
Shepherdstown, W. Va.

EQUIPMENT

BUILDINGS

The school has now three large and commodious buildings in which to carry on its work. The oldest of the three is the original Shepherd College. This was transferred by perpetual lease to the Board of Trustees of Shepherd College by Shepherd Brooks, Esq., of Boston. This Board, which is a self-perpetuating body, put the building at the State's disposal for normal school purposes at the school's first founding; and it was the sole home of the school continuously until 1897, when the school occupied a new building erected just north of the College, which was destroyed by fire in the spring of 1901. The "College" is now used as a music hall and is also headquarters for the literary societies. It contains six commodious rooms.

Adjoining the above is Shepherd College Hall, or Town Hall, which was erected in 1889 by the citizens of Shepherdstown and was put at the disposal of the school. It was used until recently for commencement exercises, lectures, receptions, etc., and was the place for holding chapel exercises. It is now used for theatricals.

The new Shepherd College building was completed and first occupied in the spring of 1904. It is thoroughly modern and well appointed. The basement contains a large gymnasium, lavatories, toilet rooms, a manual training shop and laboratories for biology and agriculture, and home economics. The first floor contains the President's office, general office, study hall, library, cloak rooms and six commodious class rooms. On the second floor are found a fine auditorium, with seating capacity of about seven hundred, five class rooms, Y. M., Y. W. C. A., etc. This building, as also the other, is heated by hot water. The boiler-room is a short distance from the main structure. Water for lavatory and other uses is pumped from a cistern to all parts of the building. Water for drinking purposes is supplied from a good well. The building is lighted by electricity. The grounds have been beautified by the planting of trees, shrubbery and flowers.

LABORATORIES

The Biology and Agriculture Laboratories occupy two rooms recently equipped to meet increasing needs growing out of the enriched curriculum. They are plumbed for water and furnished with biological tables accommodating twenty-four students at one time. Each table

BED ROOM, MEN'S DORMITORY

BED ROOM, GIRLS' DORMITORY

is supplied with a student's dissecting microscope, and each group of eight students has access to a splendid Spencer microscope magnifying above 400 diameters. An excellent collection of zoological specimens has been made and a school garden on the grounds offers opportunity for illustrative work.

The Chemistry Laboratory has accommodations for sixteen students at one time, and is equipped with all necessary chemicals and apparatus for standard work in first year chemistry. Alcohol lamps, gasoline burners and an electric hot plate are used for heating, while the faucets supply soft water. A second year in college chemistry has recently been arranged for.

The Physics Laboratory is well supplied with demonstration apparatus. There are three physics tables and three complete sets of apparatus for individual experiments.

The Domestic Science Department is fitted up with an electric range, an oven, tables for twenty-four students, and all necessary culinary apparatus for individual and group work. For Domestic Art six Singer sewing machines and several cutting tables are provided.

The Manual Training Department is supplied with a band saw and a hand jointer, both operated by electric motor. Twelve students may work at one time at the tables, which are provided with the usual tools.

Numerous geological specimens, maps, tellurians and charts meet the needs of Geography for illustrative teaching. A mounted skeleton, plaster casts and models are valuable aids to the Physiology classes.

The school owns 12 typewriters of the Remington and Underwood makes, and 10 of these are used for instruction purposes exclusively.

LIBRARY

The library occupies a handsome and exceptionally well-lighted room adjoining the study hall. It is open from 8:30 A. M. until 5:00 P. M. every school day, and from 9 A. M. to 12 M. on Saturday. Books may be taken out and kept not exceeding two weeks. It contains over 6,000 well-selected bound volumes and several hundred pamphlets, periodicals and magazines. The library is used also as a reading room, and on the tables and racks may be found about seventy of the best current magazines, periodicals and newspapers.

THE GYMNASIUM

In a climate like ours, where much of the year the weather is unfit for out-of-door sports, it is essential that schools have gymnasiums of dimensions adequate to admit of various indoor games and exercises, and equipped with all needed appliances for the development of the physical man. Shepherd College possesses such a gymnasium. It oc-

cupies a large part of the basement of the new building. An appropriation is available for the erection of a physical education building with all modern equipment. This will be erected in 1923.

MILLER HALL

Just two squares from the main building a three-story Colonial dormitory has been erected. It is modern in every detail and offers advantages that have been demanded by our patrons for some years. The dining room with a capacity of one hundred or more, laundry, kitchen, serving room and the heater room are on the first floor. On the second floor are a large reception room, a rest room, library and nine bed rooms 15 x 12. Each bed room contains two closets with shelves and lavatory with hot and cold water. Bath room and lavatories are found at each end of the corridor. The third floor contains thirteen bed rooms, a hall and lavatories. The east, north and south sides have porches. Mrs. Mary K. Cavalier is the matron. All inquiries concerning rooms should be addressed to her or to the President of the school.

MEN'S DORMITORY

On August 1, 1921, the State completed the purchase of the Entler Hotel building on Main Street and remodeled it for use as a men's dormitory. The building is of red brick, contains nineteen bed rooms, two reception rooms, and is equipped with bathrooms, lavatories, electric light and steam heat. All meals are served in the dining room at Miller Hall.

Mrs. M. G. Briscoe is matron at the men's dormitory. Reservations may be made by applying directly to her or to the President.

RULES AND REGULATIONS

The following rules have been adopted by the State Board of Control:

1. No person shall room in the dormitory who does not board there
2. No student who is not a resident of the State of West Virginia shall room in the dormitory.
3. The rates shall be as follows:

Board, per week	\$4.50
Front rooms, per week, per person	1.00
Rear rooms, per week, per person50

Each application for dormitory accommodations must be accompanied by a fee of \$5.00 which will be applied toward payment of dormitory fees.

The State Board of Education has ruled that all students shall stay at the dormitory if there be room therein, unless excused by the President upon the written permission of the parents. The rules and regulations for the government of the dormitory are designed to meet the intellectual, social and moral needs of the students and are rigidly enforced. Any student who steadfastly refuses to conform to the regulations shall be dismissed from the school.

STUDENT ACTIVITIES

Parthenian Literary Society—A volunteer organization of students, giving literary programs every Friday afternoon during the school term.

Ciceronian Literary Society—Similar to the Parthenian Society.

L'Extempo—An organization for young men only. The programs consist of extemporaneous debate and meetings are held every Friday night.

Willard Club—An organization of young women offering practice in extemporaneous speaking and meeting every Friday night.

Young Women's Christian Association—The regular time of meeting is Thursday afternoon at the dormitory.

Young Men's Christian Association—The regular time of meeting is Sunday afternoon at two o'clock.

Athletic Association—The student body of the school is organized as an athletic association under a constitution sanctioned by the faculty. This association meets early in the fall term and elects a board of directors which assumes general control of all athletics in the school. This board consists of a representative from each regularly organized class in school, a treasurer from the faculty and a general manager of athletic teams, the latter member of the board being appointed by the president of the school. Three managers for each branch of athletics are selected by the student body and from each group of managers a chief manager is chosen by the board of directors.

Every student in school is a member of this association by virtue of a fee of one dollar paid at the time of enrollment each term. In return for this fee the student has free use of athletic equipment and free admission to all games held under the auspices of the association.

Tennis, basketball, baseball and football are the forms of athletics regularly supported, under the direction of one of the best coaches in this section.

The Picket—This school paper now in its twenty-eighth year is issued twenty times a year by a staff of student editors with the approval and help of the faculty.

County Clubs—Several years ago the students from each of the several counties of the eastern panhandle formed organizations which have been active in increasing fellowship among their own number as well as letting the home folks know through the county newspapers of their activities at Shepherd College.

Beginning the school year 1923-24, the school is a member of the West Virginia Intercollegiate Forensic Association. This will bring the students into contact with those of all schools of collegiate standing in the State, in debating and public speaking contests.

COURSES OF STUDY

SECONDARY COURSE

Three years of high school work are required for admission to Shepherd College State Normal School. Teachers of experience and others preparing to teach who are at least eighteen years of age, may be admitted, even though they have not completed the high school work, and special classes will be organized to meet their needs.

SECOND YEAR

Required—

English (Composition and Rhetoric).

Elective—

Biology (if not already elected in first year).

Ancient and Mythology History (if not elected in first year).

Algebra (if not already elected in first year).

Bookkeeping and Commercial Arithmetic (if not already elected in first year).

Modern History and English History (may also be elected in third year).

Physical and Commercial Geography.

Stenography and Typewriting.

Plane Geometry (may also be elected in third year).

Drawing and Music (may also be elected in third year).

Manual Training.

THIRD YEAR

Required—

English (American Literature).

American History and Civics.

Elective—

Chemistry (may also be elected in fourth year).

General Agriculture (may also be elected in second year).

Home Economics (may also be elected in second year).

Advanced Stenography and Typewriting.

Latin, first year (may also be elected in second year).

French, first year.

Manual Training (also elected in second year).

PARTHENIAN LITERARY SOCIETY

FOURTH YEAR**Required—**

English (English Literature).

Elective—

History (Mediaeval and Bible History).

Physics (may also be elected in third year).

Agriculture, special courses.

Advanced Home Economics.

Advanced Bookkeeping, Commercial Law, Office Practice.

Latin, second year (elective on completion of first year Latin).

French, second year.

Education (see Short Course for Teachers).

From the elective subjects the student is required to choose three groups of subjects, one group three years and the others two years each. The other electives may be scattered.

Liberal provision for electives is made to enable young persons who have made a choice of vocation in life to select the subjects which will best prepare them for that vocation. It is thought that stability will be given to the course by requiring that two years work in each of two electives be taken.

SHORT COURSES FOR TEACHERS

The Short Course is primarily to prepare teachers for rural schools. Graduates of the Short Course receive the Short Course Teacher's Certificate. This certificate is good in all grades of the elementary schools; it is considered a first grade certificate in the payment of salaries; and is valid for three years and renewable for three-year periods, so long as the holder teaches two years in each three-year period, or has done work of two years in a standard normal school, or other school approved by the State Board of Education, within the life of the certificate.

The Short Course consists of three years of academic work and one year of professional courses. The work of the last year is outlined below, or beginning with the Senior year. Students entering the course must have completed the work of the previous three years in a high school, or other school of equal rank with high schools, or by credit for experience in teaching, or by examination, or by extension class work and correspondence courses, or by residence work at Shepherd College, and must have reached the age of 18 years.

RESIDENCE REQUIREMENTS FOR THE SHORT COURSE

All candidates for the Short Course Certificate, in addition to fulfilling the requirements of the course prescribed by State Board of Education, must have completed at least two-thirds of a year's work in Shepherd College State Normal School, one half of which two-thirds must have been done in residence work.

SPECIAL ANNOUNCEMENT

Beginning in 1924, all candidates for the Short Course Diploma will be required to complete 32 semester hours of work in addition to 16 units of high school credit. Eighteen weeks at least of residence work will be required to complete the course.

Senior Year

FIRST SEMESTER	SECOND SEMESTER
Required	Required
Educational Psychology ($\frac{1}{2}$ unit)	State and County Administration
Principles of Teaching ($\frac{1}{2}$ unit)	($\frac{1}{4}$ unit)
Rural School Management	School Hygiene ($\frac{1}{4}$ unit)
($\frac{1}{4}$ unit)	Special Methods ($\frac{1}{2}$ unit)
Observation of Teaching ($\frac{1}{8}$ unit)	Observation of Teaching (1-16 unit)
Directed Teaching ($\frac{1}{8}$ unit)	Directed Teaching (3-16 unit)
Manual Training or Home	Manual Training or Home
Economics ($\frac{1}{2}$ unit)	Economics ($\frac{1}{2}$ unit)
Elective	Elective
Special Methods (Each	Special Methods (Each course,
course, $\frac{1}{4}$ unit)	$\frac{1}{4}$ unit)
Physics	Physics ($\frac{1}{2}$ unit each semester)
English Literature	English Literature ($\frac{1}{2}$ unit each
Horticulture	semester)
Entomology	Horticulture ($\frac{1}{2}$ unit each
	semester)
	Entomology ($\frac{1}{2}$ unit each semester)

Regular work for the average student is two units each semester. Sixteen units are required for graduation from the Short Course. Students should not attempt more than two and one-half units of work during any semester.

Work of the three years preceding the Junior year must have included: English, three units; English History or Modern European History, one unit; elementary science, one unit.

A teacher's certificate may be used to meet some of the requirements of the Short Course. Credit of one-half unit may be given on each of the following subjects if the student has made as much as 85 per

cent on the subject in a Uniform Examination for a certificate in this State: Grammar, History, Arithmetic, Theory and Art of Teaching, Agriculture, Geography, Civil Government and Physiology. The maximum credit is four units.

Credit of one-half unit is given for each term of school successfully taught. Evidence that the teaching was successful should be presented. The maximum credit for teaching experience is two units.

Shepherd College offers a number of correspondence courses through which credit may be earned toward a Short Course Certificate. Extension classes will be organized in localities not too far from Shepherdstown where there is sufficient demand for such work, and as far as the resources of the school will permit.

In the observation and directed teaching the regular requirements are 3-16 unit for observation and 5-16 unit for directed teaching, but more or less than this may be required according to the experience and skill of the student teacher.

THE STANDARD NORMAL COURSE

The Normal Course is a two-year course for the preparation of teachers for town and city elementary schools, or for rural schools. It may be taken upon the completion of a four-year course in high school, or upon finishing the Secondary Course at Shepherd College.

Every Normal Course graduate receives a number one teacher's certificate good for teaching in any elementary or Junior High school of the State. This certificate is valid for five years, and is renewable, so that it is practically a life certificate. Conditions of renewal are as follows: First renewal, for five years, on conditions that the holder has been actively engaged in school work for three years of the preceding five-year period, and is recommended for such renewal by the county superintendent where he resides, or has been teaching. Second renewal, for five years, on recommendation of the county superintendent and passing an examination on two books of the reading circle course. (Attendance for six weeks at an approved school may be submitted in lieu of examinations for the renewal of all first grade certificates.) Third renewal, for life, if actively engaged in school work for three years during the life of the certificate, and upon recommendation for such renewal by the county superintendent of the teacher's county.

College and university credit may be had for the work of the Normal Course. Graduates of the Normal Course receive Junior standing at West Virginia University, and at other colleges and universities. By completing the two-year Normal Course a student earns college or university credit of two years, and obtains a license to teach, which may be used, if necessary, to earn money to meet the expenses of finishing his college or university course. Beginning in 1923 the State Board of Education has authorized the giving of two full years of Junior College Academic work.

Residence Requirements For The Standard Normal Diploma

All candidates for the Standard Normal Diploma are required to have completed the work of at least one year in this school, two-thirds of which must be done in residence at the school.

THE NORMAL COURSE

Academic Subjects Listed Under Junior Year

The following are required subjects preparatory to the Normal Course: U. S. History and Civics, 1 unit; Agriculture, 1 unit; Music and Drawing, 1 unit; Home Economics or Manual Training, 1 unit; English, 4 units. If these subjects have not been completed in high school, they must be taken up and completed as early as possible here.

Work of sixty-four semester hours (based on sixteen high school or preparatory units) is required to complete the Normal Course. At least thirty-two of the required sixty-four semester hours of the Normal Course must be made in required and elective professional subjects. Regular work is sixteen hours a week for a semester. No student is permitted to register for less than fourteen hours or more than eighteen hours of work in any one semester.

The academic elective subjects, as well as the required and elective professional studies of the Normal Course, are course of college grade, and receive college credit. By a rule of the State Board of Education, a student in the Normal Course may not receive more than three units of combined preparatory and normal credit in mathematics, or in foreign languages. Credit of not more than six hours may be had for courses in Special Method, by rule of the State Board of Education. The Supervisor of Teacher Training will test in observation of teaching and in the directed teaching the student's knowledge of the common branches, and in case the student does not measure up to a minimum standard in any elementary school subject special study may be required to meet the standard before graduation from the Normal Course.

In the observation and directed teaching the regular requirement is $2\frac{1}{2}$ hours for observation and $3\frac{1}{2}$ hours for directed teaching, but more or less than this may be required according to the experience and skill of the student teacher.

EXPLANATION OF TERMS

A unit consists of one subject for at least five periods per week for thirty-six weeks in secondary or short courses; and four hours per week in work of college grade.

An hour consists of one hour recitation with two preparation hours per week for eighteen weeks. Two laboratory or shop periods per week equal one hour's work. Thirty-two hours a year is standard. Not more than 36 hours can be carried. Periods are 50 minutes in length.

Program means the daily scheme of work.

SUMMER SCHOOL

A Summer School for teachers and those expecting to teach was first instituted here during the summer of 1907. The experiment proved so successful that a similar school was again instituted in the summer of 1908. The sixteenth annual summer school was opened June 12, 1922, with the largest faculty in the history of the school. The length of term was nine weeks. With the increased length of the public school term in West Virginia, the Summer School is destined to become more and more important.

A wide and expanding range of subjects is being offered each summer, and the future is full of promise for wonderful opportunities for every teacher and prospective teacher who has not completed a full standard normal school course. Those who are interested in summer school work for next year should notify the President, or A. D. Kenamond, Director of the Summer School, early in the spring of 1924.

EXTENSION AND CORRESPONDENCE STUDY

During the past five years this school has offered several courses by correspondence. This is a method by which students knowing how to study may do some work toward graduation while out of school. The scheme is devised to encourage worthy students only and does not contemplate the mere reading up of a subject to take the chances on an examination. Definite suggestions, directions and questions are worked out in typewritten form and mailed to the student a lesson at a time. The teacher requires written reports on each lesson. One-half unit course will usually require the spare time of a teacher, or other person actively engaged, for a period of five months.

The fee for a correspondence course is \$5.00 for each half-unit credit.

During the year 1922-23, more than a hundred and thirty persons were regularly enrolled for credit in this department, and did a high grade of work.

Both secondary and college credit was earned in these classes.

The following courses are offered by members of the regular faculty through the Extension Department. Each course unless otherwise indicated counts for one-half unit. It is your opportunity. Will you accept?

COURSES IN EDUCATION

Educational Psychology—A Foundation Course—4 hours.

Principles of Teaching—A Valuable Methods Course—3 hours.

Educational Tests and Scales—A Modern Course—4 hours.

Measurements of Intelligence—An advanced Course—4 hours.

Methods in Primary Reading—One-sixth Unit.

Methods in Geography—One-sixth Unit.

Methods in Arithmetic—One-sixth Unit.

CICEROONIAN LITERARY SOCIETY

Rural Education—One-sixth Unit.
 History of Education—A Most Vital Course.
 Rural Sociology—Of Large Value to All—One-half Unit.

Courses in Art and Home Economics

Those who are interested in correspondence courses should address the President.

CERTIFICATE OF PROFICIENCY IN ART

To those possessing special talent in drawing, a Certificate of Proficiency in Art will be given provided they hold the Standard Normal Diploma and have completed not less than 24 semester hours in Art, 8 of which must have been in Art 51 and 52. This course should enable a student to qualify for a special certificate to teach or supervise drawing in the public schools.

OUTLINE OF WORK BY DEPARTMENTS

All courses in this catalogue numbered I to X are secondary subjects. Those numbering 50 to 100 are given for normal and college credit. R indicates a required subject; E an elective subject. N means standard normal and S stands for short course. RNS indicates that the course is required both for standard normal and short courses.

ART

MISS IRELAND

PREPARATORY COURSES

ART I—Introductory art for beginners. A general introductory course for beginners covering the work usually done in the grammar grades, and designed to prepare them for illustrative and constructive work in connection with public schools. It includes freehand perspective, plant, animal and figure drawing in pen and pencil outline, mass and color; also construction and constructive drawing.

Credit—One-half unit.

ART II—Pictorial representations, perspective drawing, figure and animal.

Credit—One-half unit.

ART III—Commercial Art. To be applied to posters and school publications. This course will include lettering and the cartoon, color harmony and a study of the principles of unity, balance and harmony as applied to the book.

Mediums used are pencil, color, pen and ink.

Credit—One-half unit.

ART IV—Applied design. The topics are principles of design, rhythm, balance and harmony as applied to the crafts; paper and cardboard construction; leather and china.

Credit—One-half unit or four hours.

ART V—Principles of Design and its Application to the Home. The course consists of talks, class discussions and some drawing. A study of color in relation to the house and dress. Furniture as regards utility construction, period styles. Framing and hanging pictures.

Credit—One-half unit.

ART VI—Art Appreciation. The purpose of this course is to acquaint pupils with masterpieces of architecture, sculpture and paintings that are recognized by competent judges and to interest them in American art. Description, meaning and history of pictures are features, but the aim is the study of art form. Art history by periods will be considered with a special study of the art of Washington, D. C.

Credit—Three hours.

NORMAL AND COLLEGE COURSES

ART 51—Art in the school room. This is a course of training in art designed to meet the needs of grade teachers.

Text—Principles and Practice of Elementary Drawing.

Required of Standard Normal students.

ART 52—Projects in handwork and decoration suitable for the school and home.

ART 51—Prerequisite.

Required of Standard Normal students. Credit—Four hours each.

COMMERCIAL WORK

MISS WILLIAMS

HIGH SCHOOL COURSES

Bookkeeping and Commercial Arithmetic

First Year—

First Semester—A study of bookkeeping as applied to the Retail Grocery Business owned by an individual and known as Single Proprietorship. This is, of course, the least complicated form of business organization. In this set the student is employed as bookkeeper on a given salary. He audits incoming business papers and prepares outgoing papers such as checks, bills, notes and drafts. He makes endorsements, deposits funds with the bank, and proves cash, besides the recording of the daily transactions in the Purchases Book, Sales Book, Journal and Cash Book. There are three fiscal periods in the set at the end of which the pupil completes his postings, takes Trial Balances, prepares his Balance Sheets, Profit and Loss Statements and closes the Ledger.

Second Semester—In this set the pupil studies bookkeeping as applied to the Retail Grain and Feed Business, owned by two individuals and known as a partnership. It is intended to follow Semester 1 and gives further practice in the classification of accounts and the recording of business transactions. It presents account with partner, fixed assets and reserves, trading accounts, operating expenses, adjusting entries at the close of the fiscal period, special sales book, purchases book and cash book, special business forms and important general information.

Text—20th Century Bookkeeping and Accounting, James W. Baker.

Credit—One unit, five periods each week.

Second Year—

First Semester—The object of this set is to illustrate the application of the principles of accounting in a business conducted as a corporation, and give further practice in classifying accounts and recording transactions. The special features of this set in addition to corporation accounting are as follows: Accounts with selling expenses, Branch Store, accounts in connection with a manufacturing business, special

rating in all books of original entry, notes receivable book and notes payable book as books of original entry, cash journal, and many other scientific methods of recording transactions.

Second Semester—The object of this set is to present the correct principles of cost accounting and the best practice in applying them.

Text—20th Century Bookkeeping and Accounting, James W. Baker.

Credit—One unit, five periods each week.

Commercial Arithmetic—This course is arranged so as to correlate arithmetic with bookkeeping by giving many of the forms that are utilized in such courses and by giving exercises that especially promote practice and drill in the application of arithmetic to bookkeeping.

Credit—Credit for this work is included in the one-half unit for first semester's work in bookkeeping.

Stenography

The development of phonetic writing as conceived by Gregg and worked out in his Manual. The Manual is supplemented by work in shorthand penmanship, and in the progressive exercises intended to increase finger dexterity and a thorough understanding and skillful application of the principles of shorthand.

Text—Manual of Shorthand, Gregg; Speed Studies, Gregg.

Credit—One unit, five periods each week.

Second Year—

A careful review of the Gregg Manual, followed by progressive dictation taken from standard dictation texts and covering many types of business correspondence. The more advanced work includes consideration of English composition for business purposes. During the latter part of the first semester it is expected to bring the student to a writing speed of approximately 120 words per minute, and to that end there is much dictation extending over a wide variety of material, e. g., testimony, addresses, legal forms, sermons, syllabi, etc. Teaching methods are introduced and insofar as possible students are encouraged to increase their shorthand skill to verbatim speed.

Text—Gregg Speed Studies and Gregg Speed Practice.

Credit—One unit, five periods each week.

Typewriting

The touch method is insisted upon. The work done in the course is based upon the subject matter contained in a standard text. Supplementary work begins during the latter part of the first semester and consists of direct dictation of plain material for speed and accuracy, plain copy at sight, and blindfold dictation. In the latter part of the second semester shorthand transcript work is begun. The formal work includes thirty-three lessons in the text as a minimum requirement for one year's credit. Thirty words, net, per minute, is the rate that students are expected to reach at the end of the second semester.

Y. W. C. A.

Text—Rational Typewriting by Rupert P. SoRelle and Ida McLenan Cutler.

Credit—One-half unit for the year's work, five periods each week.

Second Year—

The second year's work begins with a thorough review of finger-ing, to be followed by that portion of the text not included in the out-line for the first year. A portion of the time is devoted to transcript work. Tabulation, rough drafts and special work in typing make up the schedule for the latter part of the first semester. Frequent speed tests are given. In the second semester especial attention is given to Office Training, Filing, and the use of various types of office machinery. Students are expected to reach a speed of sixty words, net, per minute on plain copy. Teaching methods are introduced and insofar as possible students are encouraged to increase their typewriting skill to verbatim speed.

Text—Rational Typewriting by Rupert P. SoRelle and Ida McLenan Cutler; Typewriting Speed Studies by Adelaide B. Hakes; Methods of Teaching Typewriting by Rupert P. SoRelle.

Credit—One-half unit, five periods each week.

Office Training for Stenographers

Office Training for Stenographers—This course is designed for putting on the finishing touches to the stenographic course. It is a short intensive course, covering only the features of office work of which the stenographer of today must possess a working knowledge. It prepares the stenographer and typist for higher grade stenographic and secretarial positions. It familiarizes the student with the various papers and their functions, and by actually applying the principles in the class room gives him sufficient practice to obtain skill in using them. As some one has said, "It eliminates the beginner," and gives the knowledge and training that employers designate as "experience."

Text—Office Training for Stenographers by Rupert P. SoRelle.

Credit—One-half unit, five periods each week.

Commercial Law

Commercial Law—The aim of this course is to give students a practical working knowledge of all the fundamental legal principles applying to commercial transactions.

Text—Essentials of Commercial Law by Wallace H. Whigam.

Credit—One-half unit, five periods each week.

Advertising and Salesmanship

Advertising and Salesmanship—A course in advertising, salesmanship and personal efficiency.

Text—Art of selling by Sheldon: Personality by Harry Collins Spillman.

Credit—One-half unit, five periods each week.

Penmanship and Methods in Writing

This course is designed to enable students to improve their writing if it is manifestly illegible or in bad form. It is a required subject for those whose writing is distinctly poor. The Economy Method of Writing is taught. As a reward for faithful effort and as a testimonial of skill, a handsomely lithographed diploma is provided such students as complete the course in a satisfactory manner.

Credit—One-half unit or 2 hours.

EDUCATION

MR. TAYLOR, MISS DAVISSON AND MISS VAN PELT

Note—Courses numbered 51R-100R are required for either the Normal Course, or both the Normal and Short Course; courses numbered 51E-100E are elective in both Normal and Short Courses. The letters N and S following the numbers of subjects indicate in what course (Normal or Short) the subject is required or elective.

Educational Psychology

60RNS—Educational Psychology. (4 Hrs.) A foundation course in the training of teachers. The psychology of learning and teaching.

62E—Psychology of Childhood. (3 Hrs.) The object is to give an understanding of the minds of children for scientific control in home and school. Open to students who have had or are taking Education 60RNS.

64E—Psychology of Exceptional Children. (2 Hrs.) Children above and below the average in mentality are studied from the standpoint of their school education. Our leading school systems make special provision for such children, and ambitious young teachers need special preparation for this work with "special classes," "special rooms," "ungraded rooms," "slow and fast moving groups," etc. This subject prepares for work in a school system where the curriculum is differentiated. Should be preceded by Education 60RNS and accompanied or preceded by Education 62E.

66E—Psychology of the Common Branches. (2 Hrs.) The psychology of the learning and teaching of reading, writing, arithmetic, spelling, and other subjects of the elementary and Junior High School's. This subject makes for expertness in teaching. Open to students who have had Education 60RNS.

Educational Sociology

70RN—Educational Sociology. (3 Hrs.) Principles of the science of sociology are applied to methods in teaching, school management, the curriculum, school administration, etc. A foundation course dealing with the study of the school as an institution of society.

*72R—Rural Sociology. An introductory course for understanding and control of rural conditions in this and other States. The relation of the rural school to rural life is studied. Text, Vogt. Credit, $\frac{1}{2}$ unit.

*74RNS—School Hygiene. A course in personal hygiene, and in sanitation for school and community. Text, Terman. Credit, 2 hours.

*Classed as academic subjects.

Educational Administration

76RN—Classroom Management. (3 Hrs.) Some topics are: The daily program, the course of study, attendance, school government, grading and promotion, records and reports, educational measurements, etc. Of special practical value to prospective town and city teachers.

75RN—Rural School Management. (2 Hrs.) This course is for those who expect to teach in the rural schools. It deals with practical problems in management of these schools, and the measurement of Educational Achievement.

77E—State and County School Administration. (2 Hrs.) Of special value to those seeking rural supervisory positions. State, county, township, district systems, rural school surveys, etc., are considered.

78E—Town and City School Administration. (2 Hrs.) For teachers, supervisors, principals and superintendents of town and city schools. A very necessary course for those seeking the best positions. Especially for Senior Normal students.

Educational Measurement

80E—Measurement of Intelligence. (3 Hrs.) This course trains in the use of mental tests in the schools. Members of the class will employ individual and group tests of general intelligence with children. The use of intelligence tests in grading, promoting, individualizing instruction, etc., will be studied. Intelligence tests are now used in our more progressive school systems, and this course aims to fit teachers for such systems. Should be preceded by Education 60RNS, 62E and 64E.

82E—Tests and Scales. (3 Hrs.) Scientific standard tests and scales to measure the results of teaching reading, arithmetic, writing, etc., are studied and used under school conditions. Only the tests and scales of the elementary grades and Junior High School are considered. Standard tests and scales in the common branches are now used in all our more progressive schools, and the class-room teacher and supervisor in such systems are expected to know how to use them. An up-to-date course for progressive teachers. Open to students who have had Education 60RNS and 90RNS, or who are experienced teachers.

Philosophy of Education

86E—History of Education. (3 Hrs.) Such topics as the education of the Greeks and Romans, education in the Middle Ages, the Renaissance in educational reformers and theorists, modern education among civilized nations, etc., are studied. A more advanced course for Senior Normal students.

88RSN—Introduction to Teaching. A course designed to introduce the student to the general field of teaching—an orientation course. Text, Judd. Credit, one hour.

Theory and Practice of Teaching

90RNS—Principles of Teaching. (3 Hrs.) In this course are studied the fundamental principles underlying modern methods in teaching. The application of these principles to the lesson assignment, recitation, drills, reviews, examinations, type lessons, etc., is the work of the course. The course should be preceded or accompanied by Education 60RNS.

92RNS—Special Methods. (All courses, 2 Hrs.) Instruction is given, through a number of courses, in the special methods applicable to the teaching of the fundamental and special elementary school subjects. Courses will be offered in methods in teaching reading, arithmetic, geography, language, composition, art, literature, spelling, writing, history, civics, elementary science, agriculture, music, nature study, physiology, hygiene, etc. In some courses the special methods of two or more subjects will be offered in each semester. In the courses, subject matter of the elementary school subjects is reviewed, according to the needs of the classes.

94RNS—Observation and Directed Teaching. This work is arranged in alternate bi-weekly periods of observation and of actual teaching under the supervision of the training teachers and the training supervisors. Conferences, daily reports and lesson plans are required. Credit, 2 to 3 hours. Offered Second Semester in the Junior year.

Open to students who have had Education 60RNS and 90RNS. A total credit of six semester hours may be earned in courses in special methods according to the rule of the State Board of Education.

96RN—Observation and Directed Teaching. This is a continuation of 94RNS and is offered in the First Semester of the Senior year. Credit, 2 to 3 hours.

98E—Science and Art of Teaching. (2 Hrs.) A special course for students who are preparing for the Uniform Examination in "Theory and Art of Teaching." This course is taught with reference to rural schools. Reading Circle books are used as texts.

Y. M. C. A.

leck's English Literature. The same period of time is spent on the text books and on composition as in the preceding year's work. Special attention is paid to exposition and argumentation.

Three periods a week are spent in the study of the following classics: Chaucer's Prologue, Shakespeare's Merchant of Venice and Twelfth Night, Milton's Minor Poems and Paradise Lost (Books I and II), Carlyle's Essay on Burns, Coleridge's Ancient Mariner, Tennyson's Princess and Idylls of the King (four), Selections from Wordsworth and Browning, and Selections from Child's Translations of Beowulf and Spenser's Faerie Queene are read in class.

Credit—One unit. Miss Turner.

NORMAL SCHOOL AND COLLEGE COURSES

College English 51—Advanced Rhetoric. A close study is made of the forms of discourse by means of analysis of specimens and practice in writing. Three themes a week and four papers are required of each student.

Credit—Three hours. Miss Turner.

College English 52—Methods of Teaching Language. Careful attention is given to methods of teaching grammar and composition in the grades. The members of the class are required to make out lesson plans and to present model lessons.

Credit—One hour. Miss Turner.

Text—Klapper's Methods in English.

53—Literature in the Grades. The aim of this course is to acquaint students with literature that is suitable for children in the grades. A study is made of typical specimens of literature. Practice teaching is an important part of the course. The children in the various grades are made acquainted with literature through story telling and the dramatizing of single classics.

Text—Lowe's Literature for Children.

Credit—Two hours. Miss Turner.

54—Victorian Poetry. In this course a study is made of the important poets of the period, special attention being given to the works of the two great interpreters of the tendencies of the Victorian Age, Browning and Tennyson. This course is open to high school graduates.

Text—Page's British Poets of the Nineteenth Century.

Credit—Three hours. Miss Turner.

55—The Age of Wordsworth. In this course a study is made of the principal works of William Wordsworth and of contemporary poets. The work consists of readings, reference work, reports and discussions. This course is open to high school graduates.

Credit—Three hours. Miss Turner.

56—American Poetry. In this course the most important poems of Bryant, Emerson, Poe, Whittier, Longfellow, Holmes, Lowell, Whit-

man and Lanier are studied. Parallel readings, reference work and reports are required. This course is open to high school graduates.

Text—Page's The Chief American Poets.

Credit—Two hours. Miss Turner.

57—Recent Current Poetry. This course will include the latest poetry of both English and American poets. Credit, 2 hours.

58—Shakespeare. In this course two of Shakespeare's plays are studied closely and critically, and a number of others are read.

Credit—Three hours. Miss Turner.

59—West Virginia Literature. The aim of this course is to acquaint students with the literature of their own State. The work consists of assigned readings, reports, class discussions and informal lectures.

Text—Turner's Stories and Verse of West Virginia.

Credit—Two hours. Miss Turner.

EXPRESSION

MRS. GIBSON

This course does not consist merely of a lot of exercises and rules of elocution, but principles and laws of expression applied to conversation recitation; the pupil is led to recognize these whenever he meets them in speech and on the printed page. This makes it all interesting study and is of great assistance in other studies. An excellent opportunity of appearing before an audience is afforded in the weekly meetings of the literary societies, while public recitals are held by the department whenever practicable.

Credit—One-sixth unit, or one and one-half hours. Tuition for individual instructions, 75 cents a lesson of 50 minutes.

FRENCH

MISS TROTTER AND PRESIDENT WHITE

French 51—Elementary French. Fraser and Squair's Briefer Course. Aldrich and Foster's, A French Reader. Composition. Sight reading. Simple conversation.

French 52—Continuation of 51. Irregular verbs begun. Text completed. Correspondence with French students in France is maintained.

Credit—One unit or 8 hours.

French 53 and 54—During the second year, a large number of books are read. Colomba, works of Daudet, Dumas, Andre, Theuriet, etc., are taken up and completed. Le Petit Journal comes to the school and is read by the class.

Credit—One unit or 8 hours.

HISTORY AND ECONOMICS

MRS. GARDINER

The purpose of this department is to teach a reasonable number of the facts of history; to help the student to classify and organize these facts; to cultivate the judgment; to show how the present has grown out of the past and how the future may best be served by it; to show the relation between literature and history; and, incidentally, to teach the student the use of books and libraries.

The method of instruction is different in the several courses. No one method is followed exclusively. A standard text is used as the basis of work, which is supplemented by much outside work on the part of the students. Definite topics are assigned and reported upon by the students.

Note books are kept in most of the courses. Map studies and picture studies are made helpful. Sources and source material are used to a limited extent. Papers and bibliographies on special subjects aid materially in carrying on the work.

HIGH SCHOOL COURSES

History I. Ancient History—This course is introduced by a brief study of Eastern nations, special attention being given to their origin, their growth and development, and their contributions to progress.

In connection with the history of Greece, her debt to the Eastern nations and her political history are studied. Emphasis is placed on her gifts in the fields of art, literature, philosophy, etc.

The Hellenistic period serves as a stepping stone to Roman history. Stress is laid upon Rome's contribution to the world in politics and legal science. The text used is Webster's Early European History.

Credit—One-half unit.

History II. Mythology—Mythology is taught for its own sake and as a basis for literature. An effort is made to show the meaning and beauty of the Greek and other myths and legends studied, and to stimulate interest in these concrete ideals of the ancients, both for their bearing on the literature and life of these people, and also for their influence on modern literature and others.

Text Gayley's Classic Myths.

Credit—One-half unit.

History III. Mediaeval History—After a review of events from the German migration to Charlemagne in 800, the great events such as feudalism, the investiture strife, mediaeval church development of the Papacy, the renaissance are taken up and studied in order. This course closes with the death of Louis XIV. Emphasis is laid upon the rise of modern nations.

STORY TELLING CLUB

Text—Webster's Early European History.

Credit—One-half unit.

History IV. Bible History—The purpose is to give a historical study of the Bible, which is somewhat of a review of parts of Ancient History.

Text—Blaikie's History of the Bible.

Credit—One-half unit.

History V. Modern History—The course in modern history is a continuation of the mediaeval history from the death of Louis XIV to the present time. The work centers around the Protestant Revolution, the French Revolution, the Industrial Revolution, the unification of Germany and Italy, the World War. The aim is to give the best understanding of the world politics of today.

Text—West's Modern Progress.

Credit—One-half unit.

History VI. History of England—This course will trace the history of England from the earliest time to the present, emphasizing chiefly the beginning of the representative government, the growth and decline of Feudalism, the rise of the Commons and the transition from arbitrary to constitutional monarchy.

Text—Thomas.

Credit—One-half unit.

History VII. American History—American History is studied from the earliest explorations and settlements up to the present time. The aim of this course, taking up as it does a study of the growth and development of the nation and government, is to make patriotic citizens.

Text—Muzzey.

Credit—One-half unit.

History VIII. Civics and Citizenship—In this course there is first a survey of the leading facts in the history of our country. This review prepares the way for a careful study of the origin and development of our political institutions. The two subjects, history and civil government, are studied in close connection with each other. The aim is to enlist the interests of the student in social welfare, to point out the intimate relation between civics and life, and make good citizens.

Text—Ashley's New Civics.

Credit—One-half unit.

NORMAL SCHOOL AND COLLEGE COURSES

History 51. Current History—The purpose will be to make the student acquainted with history in the making. Offered odd years.

Credit—Two hours.

History 52. The Study of the Nations—This course will be getting knowledge of other nations besides America; a sympathetic understanding of other peoples, an appreciation of what they have contributed to

the history of the world, and a just attitude toward them. Offered odd years.

Credit—Two hours.

Sociology 53. General Sociology—An introduction to the study of social life, its origin, evolution and organization. Offered even years.

Credit—Four hours.

History 54. Later American History—This course will show the advancement in the social and economic life of the people of the United States since 1865 and their advancement in democracy; and the growth of the United States as a world power.

Credit—Three hours.

Economics 55. College Economics—A course on the great principles which govern consumption, production, distribution and exchange of wealth.

Credit—Three hours.

History 56. History of England from the Tudors to the Present Time—This course will trace the development of the British Empire, the constitutional growth and the social and economic advancement up to the present time.

Text, Tout.

Credit—Three hours.

History 57. Economic History of the United States.

Text, Bogart.

Credit—Three hours.

HOME ECONOMICS

MISS BAUMGARDNER

I. Sewing. Plain Sewing—The making of fundamental stitches. Seams and finishes for wash materials. Darning, patching, and the making of button holes. Decorative stitches.

Undergarment Making—A three-piece suit of underwear is made. This course gives practice in applying the different stitches, etc. Commercial patterns, their interpretation, use and alteration. The study of the sewing machine, its use and care.

Students provide materials subject to the approval of the instructor. An account is kept of the exact cost of each article made.

Comparisons are made between "ready made" garments and those made in class as to cost, quality and workmanship.

Foods—The cooking when at all possible is done in individual amounts, each girl preparing the same dish at the same time. In this course a study is made of the classes of food as to nutritive value, effects of cooking, place in diet and cost.

Credit—One-half unit or four hours.

II. Sewing—This course gives practice in simple designing, draft-

ing, and fitting patterns. A study is made of fabrics as to sources, manufacture and treatment. Attention is also given to cost and suitability for various purposes. Articles made include a smock or blouse, one-piece dress (gingham preferred), an organdy or voile dress.

Foods—Continuation of Cooking I, with more advanced problems. Emphasis is laid upon the function of each class of food in the body.

A thorough study of meats is made as to cuts, correct methods of cooking, etc. Meat substitutes are also prepared.

Credit—One-half unit or four hours.

III. Sewing—In this course a study is made of color combination, patterns, and fabrics as to line and design suitable for the individual. It includes the making of a woolen dress, afternoon dress, and lessons in millinery. Designing and making a velvet hat is the final problem for the term.

Foods—A continuation of Cooking II, with canning and preserving. Simple dietics, with special attention given to combination suitable for meals. Using leftovers. Preparing and serving breakfast and luncheon. A study is made of the duties of hostess and waitress, also correct dining room service.

Credit—One-half unit or four hours.

IV. Sewing—During this study, considerable attention is given to development of originality in plan and decoration. Designing and making an evening dress, also unlined suit or wrap.

Foods—A study of the elements of successful home-making. The responsibilities of the home-maker to her family and the community. Family budget and systematizing work of the household, especially where no domestic help is employed. A study of the food requirements for the individual in health and disease throughout infancy, childhood, adult life and old age. Special lessons in invalid cookery, with instructions how to care for the sick.

Credit—One-half unit or four hours.

LATIN

MISS TROTTER

The study of Latin gives the student greater insight into language structure and thus enables him to be more proficient as a teacher of English Grammar in the elementary school course. Careful attention is given to pronunciation, English derivation and grammatical construction, constant comparisons being made with English grammar.

Latin I, II—Scott's Elementary Latin and fourteen chapters of Cæsar.

Credit—One unit or 8 hours for the year.

Latin III, IV—Four books from Cæsar's Gallic War. Composition based on the text throughout the year.

Credit—One unit or 8 hours for the year.

Latin 51 and 52—Cicero, the four orations against Catiline, and the oration for Archias.

Credit—One unit or 8 hours for the year.

Latin 53 and 54—Six books of Virgil's Aeneid, with history, mythology, and scansion.

Credit—One unit or 8 hours for the year.

MATHEMATICS

MR. KENAMOND AND MISS TROTTER

SECONDARY COURSES

Algebra I—Fundamental operations with letter and number expressions; positive and negative quantities; polynomials; simple fractions; literal equations and their uses; graphic representation; and simultaneous equations.

II—Type products, quotients and factors; equations solved by factoring; square roots and radicals; quadric equations ratio; variation and proportion; and equations involving fractions.

Text—Slaught and Lennes, First Principles of Algebra

Credit—One unit for the year.

III—Review and advanced work on topics of first year; logarithms, imaginary and complex numbers, variations, series.

Credit—One-half unit for the year.

Plane Geometry—Rectilinear figures, circles, measurement of angles of circle, construction of circles.

II—Theory of proportion, similar polygons, scale drawing, areas of polygons, regular polygons, measurements of the circle.

Text—Wells and Hart.

Credit—One unit for the year.

COLLEGE COURSES

Solid Geometry—Practical examples and original exercises throughout the course.

Credit—Four hours.

Trigonometry—The practical value of Trigonometry is very great, since it is essential to the work of surveying, astronomy and, indeed, to all sciences which depend upon mathematical demonstrations. Trigonometry treats of the relations of lines and angles by algebraic methods.

Credit—Four hours.

Methods in Arithmetic—Aims and types of arithmetic teaching; review of difficult topics; organization and adaptation of West Virginia course of study; methods of motivation; development lessons; drill lessons; relation between accuracy and speed; measuring results.

Credit—Two hours.

DOMESTIC ART

DOMESTIC SCIENCE

MANUAL TRAINING

MUSIC

MISS HOFFMAN

The Department of Music offers instruction in piano, voice, harmony and history of music. Credit not to exceed two units will be allowed on Secondary or Normal Courses.

Candidates for the diploma in piano must have completed Cooke's Musical History and three courses in Harmony and one course in ear training in addition to the following thorough foundation in technique, studies, etc., and must have completed at least three units of English and one of French.

Piano I—Studies by Heller, Czerny, Cramer and Mendelssohn; Bach's Two-part Inventions, concertos and sonatas by Mozart, Schubert and Haydn.

Piano II—Bach's Three-part Inventions, Hanon and Cramer studies; pieces by Brahms, Chopin, Mozowski and MacDowell, adapted to the needs of the pupils.

Piano III—Beethoven Sonatas, concertos by Mendelssohn, Book II, Haydn and pieces by Brahms, Raff, Rubenstein and Tschaiikowsky.

Piano IV—Chopin's Polonaises, Greig's Holberg Suite, Bach's Preludes and Fugues and selections from Wagner, Schumann and Liszt. One concerto to be memorized.

This course is used as a basis, but ambitious students may finish the course in less than four years, depending upon the time spent at work and upon the talent of the individual.

Public recitals and concerts are given frequently, which develop confidence in playing in public. Studio recitals are given by the pupils who are not so far advanced.

Sight Singing—This course in the rudiments of music is required in the Secondary Course and the Short Course for Teachers. Credit, one-fourth unit.

Public School Music—This course deals with music suitable for pupils in the elementary grades and the method of teaching it.

Required of Seniors in the Normal Course.

Credit—Two hours.

The Girls' Glee Club and Mixed Chorus offer excellent opportunity in vocal drill. These organizations assist in the concerts.

Tuition in piano, 75 cents a lesson. There are four practice pianos for the free use of music students. Knabe and Haines Brothers pianos are used exclusively in this institution.

Candidates for a Certificate in Voice must have completed 3 years of work. Two units of English and one of French are required for this certificate.

SCIENCE AND AGRICULTURE

MR. KENAMOND AND MR. LEGGE

Physiography—Each year the need for more emphasis upon the study of Geography becomes noticeable. The economic study of this subject must influence the student to a higher appreciation of his fellow man and make him realize more fully the part he is to take in the affairs of life.

I. **Physical Geography**—In some measure this subject is informational, but the aim is to make the student more appreciative of the part geographical conditions have to do with the growth, development, characteristics, habits, and manner of life of the human family. By observations, references and study of concrete cases is this idea developed.

Text—Gilbert and Brigham's Physical Geography.

Credit—One-half unit. Mr. Legge.

II. **Commercial Geography**—This course is conducted on the inductive plan. Taking several industries as examples, the principles of Commercial Geography are evolved and the student comes into a knowledge of the various forms of geographical influences which have so much to do with fixing the life, character and habits of a people.

Text—Brigham's Commercial Geography.

Credit—One-half unit. Mr. Legge.

Biology—Through the study of plants, the lower forms of animal life and then human life, the student comes into a proper appreciation of the relations of all living things to each other. Laboratory work is emphasized, field work done and note books kept neatly and accurately. Microscopic work and work with hand lenses is a large part of the course.

Text—Hunter's Civic Biology.

Credit—One-half unit each semester. Mr. Legge.

Physics—Throughout the year the work consists of four recitations or demonstration lessons and at least two hours of laboratory work per week. Thirty-two representative experiments are on the required list. A note book record of the work is taken at the time of the experiment and later written up and submitted for permanent record. Laboratory handbook, Millikan, Gale and Bishop.

I—Properties of matter, mechanics of solids, gases, heat and work magnetism, static electricity.

II—Current electricity, induced current, sound and light.

Text—Millikan and Gale's Practical Physics.

Credit—One unit. Mr. Kenamond.

Chemistry 51—Three recitation periods and two two-hour laboratory periods each week. The text used is the 1923 edition of Smith's College Chemistry.

Credit—Four hours.

Chemistry 52—A continuation of Chemistry 51.

Credit—Four hours.

Vocational Agriculture I—A course in soils and crops. Varieties of soils, their nature and their improvement. Crop rotations for soil enrichment and increased yield.

I. A course in soils and crops. Varieties of soils, their nature and their improvement. Crop rotation for soil enrichment and increased yield.

Credit—One-half unit. Mr. Legge.

II. **Animal Husbandry**—Breeding and care of domestic and farm animals.

Credit—One-half unit. Mr. Legge.

III. **Dairying and Poultry**—This course is designed for second year vocational students, but is a good general course for all who are interested in practical farm life.

Credit—One-half unit. Mr. Legge.

NORMAL AND COLLEGE COURSES

MR. LEGGE

51. **General Agriculture**—This course is primary and extensive in its nature. It is aimed to get a general view of the entire subject in all its various phases. This course is frequently offered both semesters.

Text—Gehr's Principles of Agriculture.

Credit—One-half unit or four hours.

52. **Horticulture**—A course in Fruit Growing dealing with the scientific and practical side of commercial and home fruit plantations. The college orchard and those in the vicinity are used for demonstrational work. Given last half of year.

Text—Sears' Productive Orchardng.

Credit—Four hours.

53. **Entomology**. This course considers especially the insects favorable and injurious to crops and plant life.

Text—Sanderson and Jackson.

Credit—Three to four hours, depending upon the time of year the course is offered.

ALUMNI RECORD

OFFICERS OF THE ALUMNI ASSOCIATION, 1923-1924

President	W. J. Knott, '79
First Vice-President	Mrs. Florence Grubbs, '18
Second Vice-President	Abbie Banks, '11
Recording Secretary	Ruth Taylor, '11
Corresponding Secretary	Louise Rightstine, '09
Treasurer	C. Franklin Lyne, '11

This association now numbers 991 members. It holds regular exercises and a banquet each year, one day of commencement week.

It is the desire of the President to know the permanent address of each and every graduate of this school for insertion in the catalogue. Any change in residence or occupation, if made known, will be properly recorded. An error of any kind will be cheerfully corrected as soon as attention is called to it.

1874

Ida M. Billmyer, Mrs. Frank Hill. Died August 29, 1916.
 Belle Byers, M. E. L., Mrs. James W. Bane, Charles Town, W. Va.
 Rosa Lee Cockrell, principal Graded School, Harpers Ferry, W. Va.
 Ida V. Chapline, Mrs. James H. Rogers, Purgittsville, W. Va.
